As we begin our sixth year, things have never looked better from the Summit. We took the Summit brand of friendly full-service banking to even more customers in 2004 with new locations in the Lake Hamilton area of Hot Springs and Hope. In early '05 we'll be opening new branches in Magnolia and Benton. Financial Growth was solid across the board with assets up over 8.5%, loans up nearly 12.5% and deposits growing almost 15%.

Weyerhaeuser Company's Southern Regeneration business is the leading supplier of high quality pine and hardwood seedlings for reforestation. We have the most genetically advanced loblolly pine that is suitable for your planting area. Our nursery is located just east of Magnolia, AR and you can reach the nursery at 501-234-3537.

Springhill Land and Timber's seasoned staff offers you competitive timber prices combined with state of the art thinning and harvest practices. It is important to have your timber thinned by professionals. As a primary landowner in SW Arkansas, they manage your timber as they do their own. For more information call 870-859-3626

CellFor is the world's first commercial-scale supplier of high yielding, varietal seedlings for reforestation. CellFor seedlings deliver elite genetics to all landowners, large and small. CellFor seedlings offer dramatic gains in productivity and log quality. Compared to conventional seedlings, CellFor varieties generate more revenue and a higher return on investment. Contact Greg Hay at 501-336-8553 or ghay@cellfor.com

BASF is the world's leading chemical company. We offer our customers intelligent system solutions and sophisticated products. For more info visit with Jimmy Pongetti at 501-868-5168 or pongettj@basf-corp.com.

Topic Overview

Fertilizing Pine Plantations - Michael Blazier, Ph.D.

Monies invested in fertilizing pine plantations provide annual return rates of 28%. Timing, types, rates, and returns for fertilization will be explained. Dr. Blazier conducts on-going research in fertilizing pine plantations at Louisiana State University Agriculture Center with multiple publications; and popular speaker.

Yields and Return Rates for Pine Stands - Matt Pelkki, Ph.D.

How reforestation and intermediate treatments influence corresponding growth and return rates in pine plantations - Dr. Pelkki is a professor and forest economist at UAM conducting research in timberland yields and returns; and 2004 clinic highest rated presenter.

Selling Timber Methods - Teddy Reynolds BSF, RF, SR

The two primary methods for selling timber will be explained in detail. How to prepare a sealed bid and negotiate a pay-as-cut. Mr. Reynolds is the president of Reynolds Forestry Consulting with over 4 million in 1st quarter 2005 sales, host of popular Timber Talk radio show aired on five stations with three recent publications in Tree Farmer Magazine.

Landowner Account - Allen Nipper, Ph.D.

A private landowner with timberland in Columbia County, Arkansas will share details about his family's timber management and successful practices. Dr. Allen Nipper has a unique commitment to accountability, details and returns.

Whitetail & Turkey Mgmt. - Brian Kinkel -Wildlife Biologist

Techniques for successfully managing whitetail deer and turkey on your timberlands shared by a renowned expert. Mr. Kinkel is co-author of the popular selling book "Deer Management 101" (available in most Wal-Mart stores); and 2004 most popular guest on Timber Talk radio show with three airings. Woods & Associates, Inc. has multiple research projects and publications.

Plantation Tour (optional)

Following the seminar, a short two stop field tour is scheduled for visual examples of successful plantation management. The tour will visit two plantations near Magnolia owned by Allen Nipper and his Family.

Site 1: A model 19 year old pine plantation that is seven years away from maturity and currently averaging 12 inches dbh. The after cost annual return for this plantation is currently over 12%.

Site 2: A single pass double shank sub-soiled plantation planted in February 2005.
